2.1 Program Indicators

List two or more indicators that are used to evaluate the health of your program. Include in your list at least 50% of your area's SLOs. For program indicators, use data from the current and the past year. For SLOs, use the results from the two most recent assessments. Under trends and implications for program improvement, identify and comment on any trends in your indicators or notable changes in your SLO assessment results, including what these results may imply for program improvement.
