INDEPENDENT AUDITORS' REPORT

To the Board of Trustees Redwoods Community College District Eureka, California

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of Redwoods Community College District (the District), as of and for the year ended June 30, 2017; and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITORS' REPORT

(Continued)

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of the District as of June 30, 2017, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 13 and the required supplementary information on pages 48 to 52 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information on pages 56 to 73 and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CRF) Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information on pages 56 to 73 and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the financial statements as a whole.

INDEPENDENT AUDITORS' REPORT

KCoe Jsom, LLP

(Continued)

The organization structure has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated February 6, 2018, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance, and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

February 6, 2018 Redding, California

INTRODUCTION

As required by generally accepted accounting principles, the annual report consists of three basic financial statements that provide information on Redwoods Community College District (the District) as a whole: the statement of net position; the statement of revenues, expenses, and changes in net position; and the statement of cash flows. The information provided in the management's discussion and analysis is based on the District's basic financial statements and includes all funds except the College of the Redwoods Foundation. Each statement will be discussed separately. Under the business-type activities model of financial reporting, a single entity-wide statement is required to report financial activity for all funds of the District.

During fiscal years 2016-2017, 2015-16 and 2014-15, the unrestricted net position or fund balance for the general fund exceeded the California Community Colleges Chancellor's Office (Chancellor's Office) minimum prudent unrestricted fund balance guideline of 5%. By June 30, 2017, the ending fund balance increased to 6.9%.

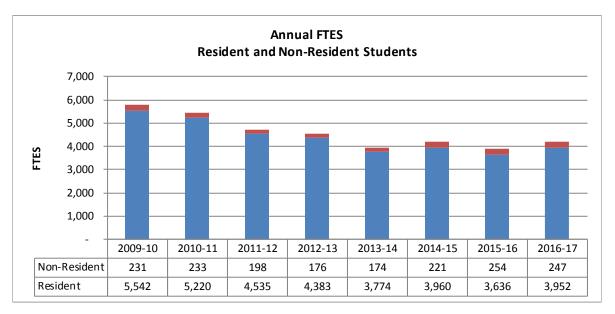

ATTENDANCE HIGHLIGHTS

The District's resident Full-Time Equivalent Students (FTES) for fiscal year 2016-17 stood at 3,952 per the District's annual 320 report. Since fiscal year 2009-10 enrollments have fallen to a cumulative 29% loss of students by fiscal year 2016-17. Non-resident enrollments decreased slightly in 2016-17 from 2015-16, but are up from 2014-15 levels. Non-residents represented just under 6% of total enrollments for the District.

Credit/Non-Credit Resident and Non-Resident Students								
Percentage Change								
Academic	Resident	Non-	Total	otal Resident Non-		Non-	Total	
Year	nesident	Resident	10tai		nesident	Resident	70147

2015-16	3,636	254	3,890		-8.2%	14.9%	-7.0%	
2016-17	3,952	247	4,199		8.7%	-2.8%	7.9%	

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Continued)

STATEMENT OF NET POSITION

The statement of net position includes all assets, deferred outflow of resources, liabilities and deferred inflow of resources using the accrual basis of accounting, which is similar to the accounting method used by most private sector organizations. Net position, the difference between assets, deferred outflow of resources, and liabilities and deferred inflow of resources is an indicator of the financial health of a district.

June 30	2017		2016	2016		Change		
ASSETS								
Current assets	\$ 14,780,616	\$	14,594,709	\$	185,907	1%

Unrestricted	(19,426,746)		(18,983,293)		(443,453)	2%		
TOTAL NET POSITION	\$ 56,841,279	\$	57,290,491	\$	(449,212)	-1%		

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The \$866 thousand decrease in total assets is caused by a decrease in both current and noncurrent assets. For current assets, while there was an increase in cash and cash equivalents, and inventories, this was offset by an increase in the "due to" amount. The decrease in noncurrent assets is due to a decrease in noncurrent restricted cash and cash equivalents. Noncurrent restricted cash and cash equivalents is comprised of local bond funds and expected to continue to trend down as bond proceeds are spent on the remaining capital construction projects.

Total liabilities increased by just over \$4.0 million which is centered in an increased net pension liability and advances from grantors and students, partially offset by reductions in accounts payable and long-term debt. During the fiscal year ended June 30, 2017, the District issued no new tax and revenue anticipation notes. The increase in noncurrent liabilities is primarily due to an increase in the net pension liability partially offset by payments on debt.

During fiscal years 2016-17, 2015-16 and 2014-15, the unrestricted fund balance for the general fund exceeded the California Community Colleges Chancellor's Office (Chancellor's Office) minimum prudent unrestricted fund balance guideline of 5%. By June 30, 2017, the ending fund balance grew to 6.9%.

The District has elected to record its actuarially determined annual liability for postemployment health benefits according to Government Accounting Standards Board (GASB) 45. Through changes in Board policy and collective bargaining contracts, newly hired employees will not participate in this program. For eligible plan participants, the District funds the current service liability, and may make annual contributions for its prior service liability. The District intends to continue to set funds aside to meet its unfunded accrued liability. The most recent actuarial study of retiree health liabilities was as of September 1, 2015. The unfunded liability is estimated to be \$6.4 million. During fiscal year 2016-17 the District provided \$590 thousand in non-operating revenues and transfers to the employee benefit fund. The fund balance set aside to pay future benefits stood at \$800 thousand at June, 30, 2017.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION

The statement of revenues, expenses, and changes in net position presents the operating finances of the District, as well as the nonoperating revenues and expenses. State general apportionment funds, while budgeted for operations, are considered nonoperating revenues according to generally accepted accounting principles.

Years Ended June 30	2017	2016	Change	
OPERATING REVENUES AND EXPENSES				
Operating Revenues				
Net tuition and fees	\$ 3,134,440	\$ 3,428,012	\$ (293,572)	-9%
Grants and contracts - noncapital	9,166,074	7,765,956	1,400,118	18%
Auxiliary enterprise sales and charges	154,081	399,506	(245,425)	-61%
Total Operating Revenues	12,454,595	11,593,474	861,121	7%
Operating Expenses	42,641,184	42,396,459	244,725	1%
Operating Loss	(30,186,589)	(30,802,985)	616,396	-2%
Nonoperating Revenues (Expenses)				
State apportionments - noncapital	9,786,296	9,694,888	91,408	1%
Education protection account revenues	3,696,678	3,963,110	(266,432)	-7%
Local property taxes	11,157,023	10,237,617	919,406	9%
State taxes and other revenues	1,089,801	3,335,508	(2,245,707)	-67%
Financial aid revenues	10,173,961	10,076,040	97,921	1%
Financial aid expenses	(10,171,264)	(10,058,107)	(113,157)	1%
Investment income - noncapital	94,446	80,271	14,175	18%
Other nonoperating revenues (expenses)	1,251,529	721,737	529,792	73%
Total Nonoperating Revenues (Expenses)	27,078,470	28,051,064	(972,594)	-3%
Loss Before Other Revenues and Expenses	(3,108,119)	(2,751,921)	(356,198)	13%
State apportionments and grants - capital	994,246	2,057,190	(1,062,944)	-52%
Local property taxes - capital	2,654,608	2,544,904	109,704	4%
Investment income - capital	40,203	33,563	6,640	0%
Interest expense - capital asset-related debt	(1,030,150)	(1,022,093)	(8,057)	1%
Change in Net Position	(449,212)	861,643	(1,310,855)	-152%
Net Position - Beginning of Year	57,290,491	56,428,848	861,643	2%
Net Position - End of Year	\$ 56,841,279	\$ 57,290,491	\$ (449,212)	-1%

The net position decreased by \$450 thousand or about 1.0% from fiscal year 2015-16 to fiscal year 2016-17. This is primarily based on decreased funding from the state. One-time mandated cost payments were received in 2015-16, and not in 2016-17.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The state's SB361 funding formula allocates apportionment funding to 72 community college districts. For fiscal year 2016-17 the District's total apportionment was \$25.7 million, up slightly from \$25.3 million the prior year. The District received apportionment funding for 3,969 full-time equivalent students (FTES) in fiscal year 2016-17. The increased funding is attributable to increased state support for community colleges, centered in a base budget increase and an increase in FTES from the prior year.

Chancellor's Office Deficit Coefficent						
Fiscal Year	Deficit Factor					
June 30, 2011	(92,032)					
June 30, 2012	(516,767)					
June 30, 2013	(4,322)					
June 30, 2014	(113,891)					
June 30, 2015	(73,552)					
June 30, 2016	-					
June 30, 2017	-					

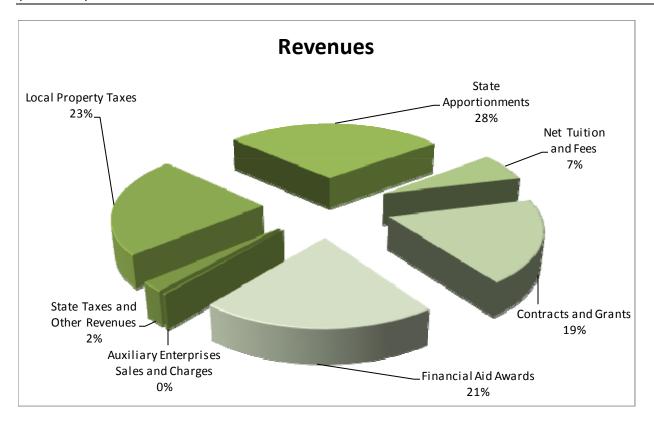

The Chancellor's Office deficit coefficient arises due to differences between the State's estimated revenue at the beginning of the fiscal year and the actual revenue received by fiscal year end. If the State's estimate for the community college system's property taxes and instruction fees are too low, the state does not make up the difference.

As a result, the amount of revenue actually available to the community college system ends up being less than was promised by the state at the beginning of the year. The Chancellor's Office reduces each community college's funding on a proportional basis to account for the state's underfunding and has named this adjustment the deficit coefficient. In years where the state overestimates revenue, the Chancellor's Office must return any excess funds. Therefore, the deficit coefficient can never be a positive number and is at best zero. The chart above evidences that the state reduced promised funding to the District by over \$800 thousand during the period reviewed.

The deficit coefficient can change during a fiscal year which complicates budget assumptions at the District level and can cause budget-to-actual variances. During fiscal year 2016-17, the Chancellor's Office deficit coefficient for the District started at \$203 thousand for the Advance Apportionment Report and increased to \$312 thousand for the P-1 report. Just a few days before fiscal year end, the P-2 report released by the Chancellor's Office on June 23, 2017, reduced the deficit coefficient to zero.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Continued)

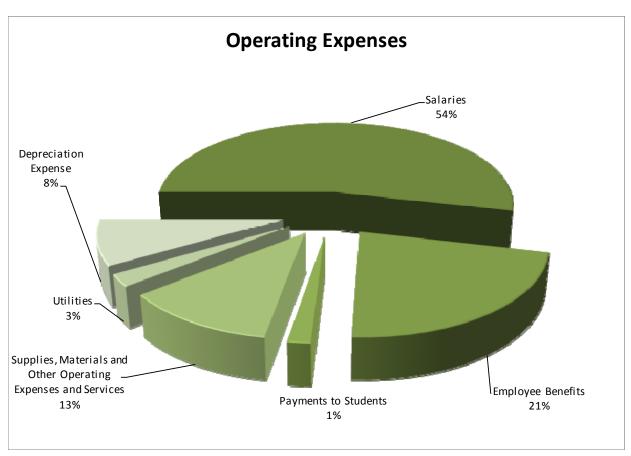

The revenue chart shows the distribution of the District's revenue, with state apportionment contributing 28%. This is the same as the prior year.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

OPERATING EXPENSES (BY NATURAL CLASSIFICATION)

Years Ended June 30	2017	2016	Change	
Salaries	\$ 22,861,082 \$	23,027,408 \$	(166,326)	-1%
Employee benefits	9,502,729	8,331,950	1,170,779	14%
Payments to students	739,799	702,688	37,111	5%
Supplies, materials, and other operating				
expenses and services	4,965,757	6,006,415	(1,040,658)	-17%
Utilities	975,033	847,577	127,456	15%
Depreciation expense	3,596,784	3,480,421	116,363	3%
Total Operating Expense	\$ 42,641,184 \$	42,396,459 \$	244,725	1%

Total operating expenses increased by just under \$244 thousand, or 1%, primarily due to a \$1.1 million, or 14%, increase in employee benefits and \$127 thousand increase, or 15%, in utilities. These increases were partially offset by a \$166 thousand, or 1%, decrease in salaries and a \$1 million, or 17%, decrease in supplies, materials, and other operating expenses and services. Employee benefits show a modest increase due to mandated PERS and STRS increases, as well as increases to medical insurance costs. While utility costs showed a modest increase, this category of expense is actually down by \$63 thousand from fiscal year 2013-14 in part due to energy efficiency upgrades.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

STATEMENT OF CASH FLOWS

The statement of cash flows provides information about cash receipts and cash payments during the fiscal year. This statement also helps users assess the District's ability to generate net cash flows, its ability to meet its obligations as they come due, and the need for external financing.

Years Ended June 30	2017	2016	Change	
Cash provided (used) by:				
Operating activities	\$ (25,992,253) \$	(24,578,275) \$	(1,413,978)	6%
Noncapital financing activities	27,419,525	27,529,934	(110,409)	0%
Capital financing activities	(1,834,598)	(4,653,113)	2,818,515	-61%
Investing activities	94,446	80,271	14,175	18%
Net Change in Cash and Cash Equivalents	(312,880)	(1,621,183)	1,308,303	-81%
Cash and Cash Equivalents - Beginning of Year	16,814,694	18,435,877	(1,621,183)	-9%
Cash and Cash Equivalents - End of Year	\$ 16,501,814 \$	16,814,694 \$	(312,880)	-2%

The District's cash and cash equivalents balance decreased by \$312 thousand to \$16.5 million. The decrease in cash and cash equivalents reflects spending down of bond proceeds on various capital projects. The District did not participate in any Tax and Revenue Anticipation Note (TRAN) program during fiscal year 2016-17. District accounting staff's cash flow analysis showed sufficient cash flow without the need for TRAN funding.

ECONOMIC FACTORS THAT MAY AFFECT THE FUTURE

The District's unrestricted ending net position or fund balance is stable and at present continues to grow as planned for in the multiyear budget forecast. However, the state significantly increased the District's scheduled pension payments to CalSTRS and CalPERS. While the state increased apportionment funding in 2016-17, the administration estimates that this increase may only be sufficient to offset the early years of scheduled pension contributions. The District's unfunded pension liability arising from CalPERS and CalSTRS participation is expected to be covered by these scheduled increased pension contributions. However, the Board of Trustees has expressed concern that the state's assumptions, such as investment returns and inflation rates, may be too optimistic. As a result, the District set aside \$300 thousand in one-time funds for potential additional pension costs, and will plan to add to the fund in upcoming budgets.

The District continues to rely on enrollment stability funding every other year as a tactic to boost state apportionment funding. Resident full-time equivalent students (FTES) were 5,542 in 2009-10 and have fallen to 3,952 by fiscal year 2016-17, resulting in a 29% long-term enrollment decline. Efforts to increase enrollments include partnerships with area high schools, expanding distance education opportunities, and developing an academic year registration system, so students may register for future terms to aid in their college planning. District leadership is also focused on strategies for improving course load efficiency rates to reduce the number of vacant seats in each course section.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Non-resident enrollments decreased slightly in 2016-17 from 2015-16, but are up from 2014-15 levels. Nonresident enrollments increased in fiscal year 2015-16 to their highest level since 2008-09. Fiscal year 2016-17 was the third straight year of strong non-resident growth. Nonresident enrollments have grown almost 45% since fiscal year 2013-14. Non-residents represent just under 6% of total enrollments for the District. However, nonresidents represent an area of success relative to student growth and could be an important positive economic factor to the District's long term fiscal stability.

The District has implemented multiple business reorganizations to reduce its employee ranks and reduce expenditures. However, as the result of the finalization and approval of the 2016-2019 Faculty Contract, faculty will receive a retroactive 2% salary increase for 2016-17, and a 2% increase going forward for 2017-18 and 2018-19. The 2% increase was extended to classified and confidential staff, as well as administrators and managers. While this puts a strain on an already tight budget, maintaining competitive salaries is necessary to attract and retain talented employees. The 2016-17 increases will be covered by one-time funds that had been set aside, and future salary increases have been built in to the budget.

As a result, the District's economic condition is driven primarily by the level of state support provided to the California community colleges system, by the District's enrollment results, and by District leadership's ability to control costs. A fundamental goal for the District is to manage costs, so that expenditure growth does not outpace revenue growth. Voter approval of proposition 55 should provide some stabilization in state apportionment funding for California's community colleges. The state of California has been experiencing a multiyear economic expansion, but Governor Brown has cautioned that a recession would adversely impact the state's financial condition.

The District's finances will continue to be positioned for the probability of austerity budgets in the future. The District is continuing long-term capital investments with the Utility Infrastructure Replacement and Seismic Strengthening Project already in the architect planning phase during fiscal year 2016-17. Also, District leadership is pursuing state capital outlay funds to replace the Physical Education Complex, the Fieldhouse, and the Creative Arts building. As a result, the District is positioned to capitalize on opportunities in the future should the long-term decline in enrollments eventually be reversed.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity Redwoods Community College District (the District) is a political subdivision of the state of California and provides higher education in portions of four counties. The District consists of one community college with two educational centers and three branches located throughout the service area.

For financial reporting purposes, the District includes all funds, agencies, and authorities that are controlled by, or dependent on, the District's executive and legislative branches. Control by or dependence on the District was determined on the basis of budget adoption, taxing authority, outstanding debt secured by revenues or general obligations of the District, obligations of the District to finance any deficits that may occur, or receipt of significant subsidies from the District.

The financial statements of the District include the financial activities of the District and the combined totals of the trust and agency funds, which represent the various scholarships and student organizations within the District.

The College of the Redwoods Financing Corporation (the Corporation) and the College of the Redwoods Foundation (the Foundation), collectively known as the Component Units, have financial and operational relationships that meet the reporting entity definition criteria of the Governmental Accounting Standards Board (GASB).

The following are those aspects of the relationship between the District and the component units that satisfy the GASB:

Accountability: The Foundation operates under a master agreement with the District in accordance with the California Education Code requirements. The District is able to impose its will upon the Foundation. The Foundation provides specific financial benefits or imposes specific financial burdens on the District.

Scope of Public Service: The component units are nonprofit, public benefit corporations incorporated under the laws of the state of California. The Foundation was formed to promote and assist the educational services of the District. The Corporation was formed for the sole purpose of providing financing assistance to the District for construction and acquisition of major capital facilities. At the end of the lease term, title of all corporate property will pass to the District for no additional consideration.

Blended Presentation: The funds of separate legal entities that meet the component unit criteria described above, and whose governing body is the same or substantially the same as the District's governing board, or who provide services entirely to the District, are blended into the District's funds by appropriate activity type to compose the primary government presentation. For financial purposes, the Corporation's financial activities have been blended into the reporting activity of the District's report.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Discrete Presentation: Funds of separate legal entities that meet the component unit criteria described above, but do not meet the criteria for blending, are discretely presented with the financial activities of the District. For financial presentation purposes, the Foundation's financial activities have been discretely presented.

Basis of Presentation and Accounting The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District has elected to follow GASB pronouncements and not Financial Accounting Standards Board (FASB) pronouncements after November 30, 1989.

For financial reporting purposes, the District is considered a special-purpose government engaged only in business-type activities (BTA). Accordingly, the District's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenditures are recorded when a liability is incurred, regardless of the timing of the related cash flows. All significant intra-agency transactions have been eliminated.

Exceptions to the accrual basis of accounting are as follows:

In accordance with industry standards provided by the California Community Colleges Chancellor's Office, summer session tuition and fees received before year end are recorded as advances from students as of June 30 with the revenue being reported in the fiscal year in which the program is predominately conducted. Summer session expenditures through June 30 are recorded as prepaid expenses.

The budgetary and financial accounts of the District are recorded and maintained in accordance with the *Budget and Accounting Manual* issued by the California Community Colleges Chancellor's Office.

Cash and Cash Equivalents The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Highly liquid market investments with maturities of one year or less at time of purchase are stated at amortized cost. All other investments are stated at fair value. Market value is used as fair value for those securities for which market quotations are readily available.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

In accordance with *California Education Code*, Section 41001, the District maintains substantially all of its cash in the Humboldt County Treasury (the County) as part of the common investment pool. The County is restricted by *California Government Code*, Section 53635 pursuant to Section 53601, to invest in time deposits, U.S. government securities, state registered warrants, notes, or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements. Investments in the County pool are valued using the amortized cost method (which approximates fair value) and include accrued interest. The pool has deposits and investments with a weighted-average maturity of less than three years. As of June 30, 2017, the fair value of the County pool is 99.86% of the carrying value and is deemed to not represent a material difference. Information regarding the amount of dollars invested in derivatives with the County was not available. The County investment pool is subject to regulatory oversight by the Treasury Oversight Committee, as required by *California Government Code*, Section 27130. The District is considered to be an involuntary participant in the external investment pool.

Investments GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, provides that amounts held in external investment pools be reported at fair value. However, cash in the County treasury is recorded at the value of the pool shares held, which approximates the fair value of the underlying cash and investments of the pools.

All other investments are reported at fair value based on quoted market prices with realized and unrealized gains or losses reported in the statement of revenues, expenses, and changes in net position.

Restricted Cash and Investments Restricted cash and cash equivalents includes amounts restricted for the repayment of debt, for use in the acquisition or construction of capital assets, for restricted programs, for any other restricted purpose, or in any funds restricted in purpose per the *California Community Colleges Budget and Accounting Manual*.

Accounts Receivable Accounts receivable consists mainly of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff, the majority of each residing in the state of California. Accounts receivable also include amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the District's grants and contracts. The District provides for an allowance for uncollectible accounts as an estimation of amounts that may not be received. The allowance for uncollectible accounts is calculated by applying certain percentages to each aging group. The allowance was estimated at \$1,553,569 for the year ended June 30, 2017.

Inventories Inventories consist of building lots and construction in progress of residential homes as part of the District's instructional programs in the construction trades. These assets are acquired for construction of student-built houses and resold upon completion of construction.

Capital Assets Capital assets are recorded at cost at the date of acquisition, or fair market value at the date of donation in the case of gifts. Where historical cost is not available, estimated historical cost is based on replacement cost reduced for inflation. Capitalized equipment includes all items with a unit cost of \$5,000 or more and estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Depreciation of capitalized assets is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings and improvements, 10 years for site improvements, 3 to 8 years for equipment and vehicles, and 5 years for library books and film.

Advances From Grantors and Students Advances from grantors and students include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year that relate to the subsequent accounting period. Advances of revenues also include amounts received from grant and contract sponsors that have not yet been earned.

Amounts Held for Others Amounts held for others represents funds held by the District for the associated students fund.

Compensated Absences Accumulated and vested unpaid employee vacation benefits and compensatory time are recognized as liabilities of the District as the benefits are earned.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

Long-Term Liabilities Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method, or the straight-line method if it does not materially differ from the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the year incurred. Amortization of bond premium and discount costs was \$167,342 for the year ended June 30, 2017.

Pension For purposes of measuring the net pension liability, deferred outflows of resources/deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and California Public Employees' Retirement System (CalPERS) and additions to/deductions from STRP's and CalPERS's fiduciary net position have been determined on the same basis as they are reported by California State Teachers' Retirement System (CalSTRS) and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable with the benefit terms. Investments are reported at fair value.

Fair Value Measurements The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; level 2 inputs are significant other observable inputs; and level 3 inputs are significant unobservable inputs.

Deferred Outflows/Inflows of Resources In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period, which will only be recognized as an outflow of resources (expense/expenditures) in the future. District pension contributions, subsequent to the measurement date, are reported as deferred outflows of resources in the government-wide statement of net position. District contributions, subsequent to the measurement date, will be amortized during the next fiscal year.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and would only be recognized as an inflow of resources (revenue) at that time.

Changes in proportion and differences between District contributions and proportionate share of pension contributions, the District's proportionate share of the net difference between projected and actual earnings on pension plan investments, changes in assumptions, and the differences between the District's expected and actual experience are reported as deferred inflows of resources or deferred outflows of resources in the government-wide statement of net position. These amounts are amortized over the estimated service lives of the pension plan participants.

A deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter life of the refunded or refunding debt.

Net Position The District's net position is classified as follows:

Net Investment in Capital Assets: This represents the District's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component net investment in capital assets.

Restricted Net Position - Nonexpendable: Consists of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may be expended or added to principal depending on donor stipulations.

Restricted Net Position - Expendable: Restricted expendable net position represents resources which are legally or contractually obligated to be spent in accordance with restrictions imposed by external third parties.

Unrestricted Net Position: Unrestricted net position represents resources derived from student tuition and fees, state apportionments, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the District, and may be used at the discretion of the governing board to meet current expenses for any purpose.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the District's policy is to first apply the expense toward restricted resources, and then toward unrestricted resources.

Classification of Revenues The District has classified its revenues as either operating or non-operating. Certain significant revenue streams relied upon for operations are recorded as non-operating revenues, including state appropriations, local property taxes, and investment income.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Revenues are classified according to the following criteria:

Operating Revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as: (1) student tuition and fees, net of scholarship discounts and allowances; (2) sales and services of auxiliary enterprises; and (3) most federal, state, and local grants and contracts, and federal appropriations.

Nonoperating Revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources.

Scholarship Discounts and Allowances Student tuition and fee revenue are reported net of scholarship discounts and allowances in the statement of revenues, expenses, and changes in net position. Scholarship discounts and allowances represent the difference between stated charges for goods and services provided by the District and the amount that is paid by students and/or third parties making payments on the students' behalf.

State Apportionments Certain current-year apportionments from the state are based on various financial and statistical information of the previous year as well as state budgets and other factors outside the District's control. In February, subsequent to the year end, the state performs a recalculation based on actual financial and statistical information for the year just completed. The District's policy is to estimate the recalculation correction to apportionment, if any, based on factors it can reasonably determine such as local property tax revenue received and changes in full-time equivalent students. Any additional corrections determined by the state are recorded in the year computed by the state.

Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

Property Taxes Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent if paid after December 10 and April 10. Unsecured property taxes are payable in one installment on or before August 31. The respective counties bill and collect the taxes for the District.

Budget and Budgetary Accounting By state law, the District's governing board must approve a tentative budget no later than July 1, and adopt a final budget no later than September 15 of each year. A hearing must be conducted for public comments prior to adoption. The District's governing board satisfied these requirements.

The budget is revised during the year to incorporate categorical funds that are awarded during the year and miscellaneous changes to the spending plans. The District's governing board approves revisions to the budget.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

On-Behalf Payments GASB Statement 24, Accounting and Financial Reporting for Certain Grants and Other Financial Assistance, requires that direct on-behalf payments for fringe benefits, and salaries made by an entity to a third-party recipient for the employees of another legally separate entity, be recognized as revenue and expenditures by the employer government. The state of California makes direct on-behalf payments for retirement benefits to CalSTRS and CalPERS on behalf of all community college districts in California. The amount reported in the basic financial statements as of June 30, 2017, was \$171,434.

2. CASH, CASH EQUIVALENTS, AND INVESTMENTS

The cash and cash equivalents are as follows:

June 30, 2017	Primary Institution	Foundation
Cash and cash equivalents	\$ 6,623,096	\$ -
Restricted cash and cash equivalents	9,878,718	2,287,011
Total Cash and Cash Equivalents	\$ 16,501,814	\$ 2,287,011

The carrying amount of the cash is summarized as follows:

June 30, 2017	Primary Institution	Foundation
Cash in County treasury Cash on hand and in banks	\$ 13,264,549 \$ 3,237,265	- 2,287,011
Total Deposits	\$ 16,501,814 \$	2,287,011

As provided for by the *California Education Code*, Section 41001, a significant portion of the District's cash balances of most funds is deposited with the Humboldt County Treasurer for the purpose of increasing interest earned through County investment activities.

Copies of the County's audited financial statements can be obtained from the Humboldt County Auditor-Controller's Office, 825 5th Street, Eureka, California, 95501.

The pooled treasury has regulatory oversight from the Humboldt County Treasury Oversight Committee in accordance with *California Government Code* requirements.

The *California Government Code* requires California banks and savings and loans associated to secure the District's deposits by pledging government securities as collateral. The market value of pledged securities must equal 110% of an entity's deposits. California law also allows financial instructions to secure an entity's deposits by pledging first trust deed mortgage notes having a value of 150% of an entity's total deposits.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

All cash held by financial institutions is collateralized by securities that are held by the broker or dealer, or by its trust department or agent, but not in the District's name. The District's investments are as follows:

June 30, 2017	Level 1	Level 2	Level 3
County treasury pool	\$ - \$	13,264,549 \$	-

The Foundation's investments are as follows:

June 30, 2017	Level 1	Level 2	Level 3
Certificate of deposit	\$ 75,050 \$	- \$	-
Assets held by others	-	-	2,365,328
Total Foundation Investments	\$ 75,050 \$	- \$	2,365,328

Following is a description of the valuation methodologies used for assets measured at fair value:

Assets Held By Others: Each beneficiary in the investment pool held by Humboldt Area Foundation (the Community Foundation) is assigned units based on the fair market value of the assets at the time they are transferred to the Community Foundation. Shares in the investment pool are valued daily based on the underlying securities owned. The investments in the investment pool are primarily made up of mutual funds, common stock and other miscellaneous investments.

Certificate of Deposit: The fair value of the certificate of deposit is recorded at amortized cost.

The change in the level 3 investments is as follows:

Balance - July 1, 2016	\$ 2,307,618
Contributions	-
Disbursements	(279,243)
Investment income	336,953
Balance - June 30, 2017	\$ 2,365,328

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Custodial Credit Risk - Deposits

For deposits, credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned. As of June 30, 2017, the District's and the Foundation's bank balances were exposed to custodial credit risk as follows:

June 30, 2017		Primary Institution	Foundation
Uninsured and collateral held by pledging bank's	¢	4 020 074 ¢	
trust department not in the District's name	\$	4,038,071 \$	

Primary Institution – Credit Risk - Investments

California Government Code, Section 53601, limits investments in commercial paper to "prime" quality of the highest ranking, or of the highest letter and numerical rating as provided, by nationally recognized statistical rating organizations (NRSRO), and limits investments in medium-term notes to a rating of A or better. Individual securities must be backed by the federal government or rated AAA, AA, or A by Standard & Poor's or Aaa, Aa, or A by Moody's indices. The District has no investment policy that would further limit its investment choices.

The District's investment in the County investment pool is unrated.

Interest Rate Risk – Investments

California Government Code, Section 53601, limits the District's investments to maturities of five years. As of June 30, 2017, the District had no investments with maturities greater than five years.

3. ACCOUNTS RECEIVABLE

Accounts receivable consisted of the following:

June 30, 2017	Primary Institution	Foundation
Tuition and fees - net Less: Allowance for doubtful accounts	\$ 2,834,352 (1,553,569)	\$ 661,931 (451,697)
Tuition and Fees - Net	1,280,783	210,234
Federal grants and contracts	892,983	-
State grants and contracts	282,630	-
Local grants and contracts	21,392	-
State apportionment - noncapital	69,319	-
State grants, capital	229,805	_
State taxes and other revenues	261,212	_
Other	37,396	-
Total	\$ 3,075,520	\$ 210,234

NOTES TO THE FINANCIAL STATEMENTS (Continued)

4. CAPITAL ASSETS

Capital asset activity is summarized as follows:

	Balance June 30, 2016	Additions	Deductions	Transfers	Balance June 30, 2017
Nondepreciable Capital Assets					
Land	\$ 2,006,312	\$ 65,611	\$ - \$	- \$	2,071,923
Construction in progress	6,035,485	3,287,744		(1,611,117)	7,712,112

Total Other Long-Term Liabilities	\$ 955,148	\$ -	\$	(95,993)	\$ 859,155	\$	44,880

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Long-term debt consisted of the following individual debt issues:

June 30, 2017

GENERAL OBLIGATION BONDS	
2004 General Obligation Bonds, Series 2013, issued in the original amount of	
\$7,320,000. Final maturity August 1, 2030. Interest rates range from 2.00% to 5.25%.	\$ 7,150,000
Unamortized issuance premium on 2004 General Obligation Bonds, Series 2013.	 302,370
Total 2004 General Obligation Bonds, Series 2013	 7,452,370
2014 General Obligation Refunding Bonds issued in the original amount of	
\$25,140,000. Final maturity August 1, 2031. Interest rates range from 2.00% to 4.25%.	22,625,000
Unamortized issuance premium on 2014 General Obligation Refunding Bonds.	 2,045,334
Total 2014 General Obligation Refunding Bonds	 24,670,334
Total General Obligation Bonds	32,122,704
Less: Current portion	 (1,335,000)
Total Long-Term Debt - Noncurrent Portion	\$ 30,787,704

The annual debt service requirements to maturity on the general obligation bond issues are as follows:

Years Ending June 30	 Principal	Interest	Bonds Total	Bond Premium	Total
2018	\$ 1,335,000	\$ 1,345,569	\$ 2,680,569	\$ 167,342	\$ 2,847,911
2019	1,435,000	1,281,419	2,716,419	167,342	2,883,761
2020	1,510,000	1,252,719	2,762,719	167,342	2,930,061
2021	1,630,000	1,179,419	2,809,419	167,342	2,976,761
2022	1,750,000	1,100,619	2,850,619	167,342	3,017,961
2023-2027	10,695,000	4,269,744	14,964,744	817,572	15,782,316
2028-2032	11,420,000	1,373,037	12,793,037	693,422	13,486,459
Total	\$ 29,775,000	\$ 11,802,526	\$ 41,577,526	\$ 2,347,704	43,925,230
Less: Current interest					(11,802,526)
Net Principal					\$ 32,122,704

The amount of interest cost incurred during the year ended June 30, 2017, was \$1,371,458, of which \$143,173 was capitalized.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Other long-term liabilities at June 30, 2017, include the following liability which required principal payments:

June 30, 2017

In 2012, the District offered early retirement benefits to select employees. The liability for the eight employees who accepted the offer was \$488,169, payable in	
eight payments ending in 2020. The interest rate is 7.75%.	\$ 207,102
Less: Current portion	(44,880)
Early Retirement Incentive Program - Noncurrent Portion	\$ 162,222

The annual principal payment for retirement on the Early Retirement Incentive Program liability is as follows:

Years Ending June 30

2019 2020	77,473 84,749
Total	\$ 207,102

NOTES TO THE FINANCIAL STATEMENTS (Continued)

9. EMPLOYEE RETIREMENT SYSTEMS

General Information about the Pension Plans

Qualified employees are covered under cost-sharing, multiple-employer defined benefit pension plans maintained by agencies of the state of California. Certificated employees are members of CalSTRS and classified employees are members of CalPERS.

Summary

Net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense are as follows:

June 30, 2017		Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense	
CalSTRS State Teachers' Retirement Plan CalPERS School Employer Pool	\$	15,367,390 13,074,541	\$ 2,468,898 4,770,795	\$ 1,540,248 686,411	\$	1,668,213 912,829
Total Net Pension Liability	\$	28,441,931	\$ 7,239,693	\$ 2,226,659	\$	2,581,042

Net pension liability, deferred outflows of resources, and deferred inflows of resources are reported in the accompanying statement of net position; pension expense is reported in the accompanying statement of revenues, expenses, and changes in net position.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

California State Teachers' Retirement System

Plan Description Certificated employees of the District participate in STRP, a cost-sharing, multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. Benefit provisions are established by state statute, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a publicly available financial report that can be obtained at www.calstrs.com.

Benefits Provided STRP provides retirement, disability, and survivor benefits to beneficiaries. The defined benefit program provides retirement benefits based on members' final compensation, age, and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. The program has two benefit formulas:

- CalSTRS 2% at 60 CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2% of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4% at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2% to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4% of final compensation.
- CalSTRS 2% at 62 CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2% of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4% at age 65 or older.

Contributions Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Active plan members of the CalSTRS 2% at 60 formula are required to contribute 10.25% of their salary. Active plan members of the CalSTRS 2% at 62 formula are required to contributed 9.205% of their salary. The required employer contribution rate for fiscal year 2016-17 was 12.58% of annual payroll. State Teachers' Retirement Law also requires the state to contribute 8.828% of the members' creditable earnings from the fiscal year ending in the prior calendar year. The District's contribution to CalSTRS for the fiscal year ended June 30, 2017, was \$1,247,198.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions At June 30, 2017, the District reported a net pension liability for its proportionate share of the net pension liability that reflected a reduction for state pension support provided by to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

June 30, 2017

State's proportionate share of the net pension liability associated with the District	5,575,289
Total	\$ 20,942,679

The District's net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015, rolled forward to June 30, 2016, using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the state, actuarially determined. At June 30, 2016, the District's proportion was 0.019%.

For the year ended June 30, 2017, the District recognized pension expense of \$171,434 and revenue of \$171,434 for support provided by the state. For the year ended June 30, 2017, the District recognized pension expense of \$1,668,213. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows Resources	Deferred Inflows Resources
Net difference between expected and actual experience Net difference between projected and actual	\$ - \$	(374,965)
earnings on pension plan investments	1,221,700	-
Changes in proportions	-	(1,165,283)
District contributions subsequent to the measurement date	1,247,198	
Total	\$ 2,468,898 \$	(1,540,248)

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The \$1,247,198 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending June 30	
2018	\$ (235,963)
2019	(235,963)
2020	447,467
2021	195,575
2022	(262,646)
2023	(227 018)

Actuarial Assumptions

Total

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation date	June 30, 2015
Measurement date	June 30, 2016
Actuarial cost method	Entry Age Normal
Actuarial assumptions:	
Investment rate of return	7.60%
Interest on accounts	4.50%
Wage growth	3.75%
Consumer price inflation	3.00%
Post-retirement benefit increases	2.00% simple

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on RP2000 series tables adjusted to fit CalSTRS experience. RP2000 series tables are an industry standard set of mortality rates published by the Society of Actuaries.

The actuarial assumptions used in the June 30, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2006, through June 30, 2010.

\$

(318,548)

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS' general investment consultant (Pension Consulting Alliance - PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in 2012 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary's (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of a 20-year geometric real rates of return and the assumed asset allocation for each major asset class for the year ended June 30, 2016, as summarized in the following table:

	Target Allocation	Long-Term Expected Real Rate of Return
Asset Class		
Global equity	47%	6.30%
Fixed income	12%	0.30%
Real estate	13%	5.20%
Private equity	13%	9.30%
Absolute return/risk mitigating strategies	9%	2.90%
Inflation sensitive	4%	3.80%
Cash/liquidity	2%	-1.00%
Total	100%	

Discount Rate

The discount rate used to measure the total pension liability was 7.60%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.60%) and assumes that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.60%, as well as the District's proportionate share of the net pension liability if it were calculated using a discount rate that is one percentage point lower (6.60%) or one percentage point higher (8.60%) than the current rate:

June 30, 2017	1% Decrease (6.60%)	Current Discount Rate (7.60%)	1% Increase (8.60%)
District's proportionate share of the net pension liability	\$ 22,117,140	\$ 15,367,390	\$ 9,761,440

Pension Plan Fiduciary Net Position Detailed information about the pension plan's fiduciary net position is available in CalSTRS' separately issued Comprehensive Annual Financial Report (CAFR).

California Public Employees' Retirement System

Plan Description Classified employees of the District participate in the School Employer Pool (the Plan) under CalPERS, a cost-sharing, multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by state statute, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues a publicly available financial report that can be obtained at www.calpers.ca.gov.

Benefits Provided The plan provides retirement, disability, and death benefits to plan members and beneficiaries. The benefits are based on members' years of service, age, final compensation, and benefit formula. Members become fully vested in their retirement benefits earned to date after five years of credited service.

Contributions Member contribution rates are defined by law. Employer contribution rates are determined by periodic actuarial valuations. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. Active plan members that met the definition of a new member under the Public Employees' Pension Reform Act are required to contribute 6.00% of their salary. Classic employees are required to contribute 7.00% of their salary. The required employer contribution rate for the 2016-17 fiscal year was 13.888%. The District's contributions to CalPERS for the fiscal year ended June 30, 2017, was \$1,153,733.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions At June 30, 2017, the District reported a net pension liability of \$13,074,541 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015, rolled forward to June 30, 2016, using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the state, actuarially determined. At June 30, 2017, the District's proportion was .066%.

For the year ended June 30, 2017, the District recognized pension expense of \$912,829. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources.

	Deferred Outflows Resources	Deferred Inflows Resources
Difference between expected and actual experience	\$ 562,331	\$ -
Net difference between projected and actual		
earnings on pension plan investments	2,028,748	-
Changes in assumptions	-	(392,812)
Changes in proportion	1,025,983	(293,599)
District contributions subsequent to the measurement date	1,153,733	
Totals	\$ 4,770,795	\$ (686,411)

The \$1,153,733 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending June 30	
2018	\$ 686,334
2019	660,011
2020	1,054,820
2021	529,486
Total	\$ 2,930,651

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Actuarial Assumptions The total pension liability in the June 30, 2015, actuarial valuation for CalPERS was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation date	June 30, 2015
Measurement date	June 30, 2016
Actuarial cost method	Entry Age Normal
Actuarial assumptions:	
Discount rate	7.65%
Inflation	2.75%
Salary increases	Varies by entry age and service
Investment rate of return	7.50%

CalPERS uses custom mortality tables to best fit the patterns of mortality among its members. The mortality table used was developed based on CalPERS specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.

The actuarial assumptions used in the June 30, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 1997, through June 30, 2011.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

	Target Allocation	Rate of Return Years 1-10	Rate of Return Years 1-10
Asset Class			
Global equity	51%	5.25%	5.71%
Global debt securities	20%	0.99%	2.43%
Inflation assets	6%	0.45%	3.36%
Private equity	10%	6.83%	6.95%
Real estate	10%	4.50%	5.13%
Infrastructure and forestland	2%	4.50%	5.09%
Liquidity	1%	-0.55%	-1.05%
Total	100%		

Discount Rate The discount rates used to measure the total pension liability was 7.65%. To determine whether the municipal bond rate should be used in the calculation of a discount rate, the amortization and smoothing periods recently adopted by the CalPERS Board were used. Projections of expected benefit payments and contributions was performed to determine if the assets would run out. The test revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.65%, as well as the District's proportionate share of the net pension liability if it were calculated using a discount rate that is one percentage point lower (6.65%) or one percentage point higher (8.65%) than the current rate:

		Current	
June 30, 2017	1% Decrease (6.65%)	Discount Rate (7.65%)	1% Increase (8.65%)
District's proportionate share of the net pension liability	\$ 19,507,288	\$ 13,074,541	\$ 7,718,013

Pension Plan Fiduciary Net Position Detailed information about the pension plan's fiduciary net position is available in CalPERS' separately issued Comprehensive Annual Financial Report (CAFR).

NOTES TO THE FINANCIAL STATEMENTS (Continued)

10. STATE AND FEDERAL ALLOWANCES, AWARDS, AND GRANTS

The District has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowance under terms of the grants, management believes that any required reimbursements will not be material.

11. JOINT POWERS AUTHORITIES (JPA)

The District participates in property, liability, and workers' compensation insurance programs organized through the Northern California Community Colleges Self-Insurance Authority (NCCCSIA), the Statewide Association of Community Colleges (SWACC), and the Protected Insurance Program for Schools (PIPS). These JPAs are created to provide self-insurance programs to California community colleges.

The District participates in a health insurance benefits program organized by the North Coast Schools Medical Insurance Group (NCSMIG), which is a JPA, created to provide self-insurance programs for school districts.

The District is a participant in the Schools Excess Liability Fund (SELF). SELF is a JPA created to provide services and other items necessary and appropriate for the establishment, operation, and maintenance of a self-funded excess liability fund for public educational agencies, which are parties thereto. Should excess liability claims exceed amounts funded to SELF by all participants, the District may be required to provide additional funding.

The JPAs are independently accountable for their fiscal matters, and as such, are not component units of the District for financial reporting purposes.

Each District member pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to their participation in the JPA. For the last three years, settled claims have not exceeded insurance coverage, nor has there been any reduction in insurance coverage.

The District participates in the School Project for Utility Rate Reduction (SPURR), a joint powers authority of K-14 districts that aggregates purchasing power of participants in order to reduce natural gas expenditures.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

12. POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (OPEB)

The District provides postemployment healthcare benefits for retired employees in accordance with negotiated contracts with the various bargaining units of the District.

Plan Description

The Redwoods Community College District Health Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the District. The District provides medical, dental, and vision insurance coverage to all employees who retire from the District and meet the age and service requirement for eligibility. Group medical coverage is provided for academic retirees hired before January 1, 2008; classified retirees hired before July 1, 2006; and administrative, managerial, and confidential employees hired before September 1, 2006. Group medical coverage is also provided for board members meeting certain eligibility requirements. Membership of the Plan consists of 48 retirees currently receiving benefits and 95 eligible active plan members.

Funding Policy

The contribution requirements are established and may be amended by the District and the District's bargaining units. The required contribution is based on projected pay-as-you-go financing requirements with an additional amount to prefund benefits as determined annually. For the year ended June 30, 2017, the District contributed \$881,694 to the Plan.

Annual OPEB Cost and Net OPEB Asset

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial accrued liabilities (UAAL) (or funding costs) over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the District's net OPEB asset to the Plan.

June 30, 2017

·	
Annual required contribution	\$ 762,373
Interest on net OPEB obligation	(32,052)
Adjustment to ARC	33,716
Annual OPEB Cost	764,037
Contributions	(881,694)
Change in Net OPEB Obligation	(117,657)
Net OPEB Asset - Beginning of Year	(712,277)
Net OPEB Asset - End of Year	\$ (829,934)

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB asset for fiscal year 2017 and the two preceding years were:

Year Ended	Annual OPEB Cost	Actual Employer Contributions	Percentage Contributed	Net Ending OPEB Asset
June 30, 2015	\$ 785,478 \$	898,723	114.42% \$	(549,193)
June 30, 2016	\$ 771,375 \$	934,459	121.14% \$	(712,277)
June 30, 2017	\$ 764,037 \$	881,694	115.40% \$	(829,934)

Funded Status and Funding Progress

The actuarial accrued liability for benefits was \$6,356,179 and the actuarial value of assets was \$-0-, resulting in an unfunded actuarial accrued liability of \$6,356,179. The covered payroll (annual payroll of active employees covered by the Plan) was \$8,786,930, and the ratio of the underfunded actuarial accrued liability to the covered payroll was 72.34%.

As of June 30, 2017, the District had not set aside any amounts in an external trust fund.

Actuarial Methods and Assumptions

Actuarial valuation of an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan, as understood by the employer and the plan members), and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefits costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the September 1, 2015, actuarial valuation, the entry age normal cost method was used. The actuarial assumptions included a 4.5% discount rate, a 2.75% price inflation, a 2.75% wage inflation, and an annual cost trend rate of 4.00%. Unfunded actuarial accrued liabilities are amortized to produce payments (principal and interest), which are a level percentage of payroll over a 30-year period.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

13. COMMITMENTS AND CONTINGENCIES

The District entered into various operating leases for land, buildings, and equipment. All leases contain termination clauses providing for cancellation upon written notice to lessors. It is expected that in the normal course of business most of these leases will be replaced by similar leases.

The District periodically enters into construction commitments which are funded through state grants and/or Measure Q Bond funding. At June 30, 2017, the District had unfinished contracts in the amount of \$1,534,519.

The California Division of the State Architect has informed the District that since some of the District's buildings are located near active earthquake faults, the best mitigation is avoidance of those areas. The District is constructing comparable new building space on adjacent sites and is considering potential nonstudent uses of the existing affected buildings, if possible. At June 30, 2017, the District's affected assets have a net book value of \$247,068 and have been reported without adjustment.

Community college districts receive state funding based on the number of eligible student enrollments. In a year where a district's enrollments fall below the prior year's enrollment level, the State Chancellor's Office provides enrollment "stability" funding based on the prior year's higher enrollment level for one year. The District received enrollment stability funding during fiscal years 2011-2012, 2012-2013, 2013-2014, and 2015-2016 because enrollment dropped each year below the previous year's enrollment level. During fiscal year 2014-2015 and 2016-2017, the District's enrollments increased over the prior year, so no enrollment stability funding was provided.

14. SUBSEQUENT EVENT

The District accepted an offer of \$1.1 million on their Garberville property from the Southern Humboldt Community Healthcare District. The District is currently in escrow and unsure of the close date. The proceeds from the sale will be utilized for capital projects.

Subsequent to year-end, the District was notified by DSA that the Student Union building on the Eureka Campus has seismic issues and a portion of the building is unsafe for students to occupy. The affected portion is mostly comprised of the dining services cafeteria. The District will likely replace the building, and are unsure of whether or not the District will be receive state funds for this project. In the interim, District funds will need to be utilized to relocate the cafeteria to a temporary location on campus.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

15. IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In June 2015, GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement improves accounting and financial reporting by state and local governments for postemployment benefits other than pensions. It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. GASB Statement No. 75 replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. This statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed. The District's management has not yet determined the impact that implementation of these standards, which was required on July 1, 2017, will have on the District's financial statements, if any.

In March 2017, GASB issued Statement No. 85, *Omnibus 2017*. This statement addresses practice issues that have been identified during implementation and application of certain GASB statements, including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits. It addresses timing of the measurement of pension or OPEB liabilities and expenditures recognized, recognizing on-behalf payments for pensions of OPEB, presenting payroll-related measures in required supplementary information for purposes of reporting by OPEB plans and employers that provide OPEB, and accounting and financial reporting for OPEB provided through certain multiple-employer defined benefit OPEB plans. The District's management has not yet determined the impact that implementation of these standards, which is required on July 1, 2017, will have on the District's financial statements, if any.

In May 2017, GASB issued Statement No. 86, *Certain Debt Extinguishment Issues*. This statement improves consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources, resources other than the proceeds of refunding debt, are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The District's management has not yet determined the impact that implementation of these standards, which is required on July 1, 2017, will have on the District's financial statements, if any.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

16. BENEFICIAL INTEREST IN CHARITABLE REMAINDER ANNUITY TRUST – FOUNDATION

The Foundation was named a remainder beneficiary of a charitable remainder annuity trust, which was created in June 1997. The income beneficiary is to receive, first from income, and to the extent that income is insufficient, from principal, a total annuity each year equal to 7% of the net fair market value of the trust assets on the first day of the trust. Upon the death of the income beneficiary, 33% of the remaining principal is to be distributed to the Foundation.

A noncurrent asset for the charitable remainder trust has been recognized at the present value of the expected future cash flow discounted at a rate of 2.4% at June 30, 2017. Changes in the value of the trust have been reported in the statement of revenues, expenses, and changes in net position.

SCHEDULE OF DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY – CALIFORNIA STATE TEACHERS' RETIREMENT SYSTEM

NOTES TO THE SUPPLEMENTARY INFORMATION

1. PURPOSE OF SCHEDULES

Schedule of Workload Measures for State General Apportionment

The schedule of workload measures for state general apportionment annualized attendance as of June 30, 2017, represents the basis of apportionment of the District's annual source of funding.

Schedule of Expenditures of Federal Awards

This schedule includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2017. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance).

Expenditures reported on this schedule are reported on the modified basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

The District has not elected to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

Schedule of Expenditures of State Awards

This schedule includes the state activity of the District under categorical programs of the state of California for the year ended June 30, 2017. The information in this schedule is presented in accordance with the requirements of the *California Community Colleges Contracted District Audit Manual 2016-17*.

Expenses reported on this schedule are reported on the accrual basis of accounting.

Reconciliation of Annual Financial and Budget Report (Form CCFS-311) With District Accounting Records

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Form CCFS-311 to the District accounting records.

Reconciliation of 50% Law Calculation

This schedule provides the information necessary to reconcile the 50% law calculation as reported on the Form CCFS-311 to the audited financial statements.

Reconciliation of Education Protection Account Expenditures

This schedule provides the information necessary to reconcile the Education Protection Account Expenditures reported on the Form CCFS-311 to the audited financial statements.

NOTES TO THE SUPPLEMENTARY INFORMATION (Continued)

Reconciliation of Fund Equity to Net Position and Reconciliation of Change in Fund Equity to Change in Net Position

These schedules provide the information necessary to reconcile the supplemental combining financial schedules to the audited financial statements.

2. COMBINING FINANCIAL STATEMENTS' SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accompanying combining balance sheet — District funds included in the reporting entity, combining statement of revenues, expenditures/expenses, and changes in fund equity — District funds Included in the reporting entity are presented on the modified accrual basis of accounting with the exception of the Farm Operations Fund and Employee Benefits Trust Fund, which are presented on the accrual basis of accounting consistent with the presentation in the entity-wide financial statements.

Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable" and "available"). "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current period or soon thereafter to pay liabilities of the current period. The District considers property taxes available if they are collected within 60 days after year end. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

Property taxes, franchise taxes, licenses, interest revenue, and charges for services are susceptible to accrual. Other receipts become measurable and available when cash is received by the District and are recognized as revenue at that time.

The District reports advance of revenue on its combining balance sheet. Advance of revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Advance of revenues also arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has legal claim to the resources, the liability for advance of revenue is removed and revenue is recognized.

3. LOAN PROGRAM

The District is responsible only for the performance of certain administrative duties with respect to the Federal Direct Loan Program. Accordingly, the value of these outstanding loans is not reflected in the District's financial statements. It is not practical to determine the balance of loans outstanding to students of the District under this program as of June 30, 2017.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Redwoods Community College District Eureka, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Redwoods Community College District (the District) an the discretely presented component unit as of and for the year ended June 30, 2017; and the related notes to the financial statements, which collectively comprise the District's basic financial statements; and have issued our report thereon dated February 6, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of from misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Redding, California

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees Redwoods Community College District Eureka, California

Report on Compliance for Each Major Federal Program

We have audited Redwoods Community College District (the District) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

(Continued)

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

(Continued)

Purpose of This Report

KCoe Jsom, LLP

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance, and the results of that testing, based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

February 6, 2018 Redding, California

INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE

To the Board of Trustees Redwoods Community College District Eureka, California

Compliance

We have audited the Redwoods Community College District's (the District) compliance with the types of state compliance requirements described in the *California Community Colleges Contracted District Audit Manual 2016-17*, published by the California Community Colleges Chancellor's Office, for the year ended June 30, 2017. The applicable state compliance requirements are identified in the table below.

Management's Responsibility

Compliance with the requirements referred to above is the responsibility of the District's management.

Auditors' Responsibility

Our responsibility is to express an opinion on the District's compliance with the state laws and regulations based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *California Community Colleges Contracted District Audit Manual 2016-17*, published by the California Community Colleges Chancellor's Office. Those standards and the *California Community Colleges Contracted District Audit Manual 2016-17*, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on compliance with the state laws and regulations described in the schedule below occurred. An audit includes examining, on a test basis, evidence supporting the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide legal determination of the District's compliance with those requirements.

Basis for Qualified Opinion on State Compliance

As described in the accompanying schedule of findings and questioned costs, the District did not comply with the requirements regarding the state general apportionment funding system as described in items 2017-001. Compliance with such requirements is necessary, in our opinion, for the District to comply with the requirements applicable to the state general apportionment funding system.

The District's responses to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subject to the auditing procedures applied in the audit of compliance, and accordingly we express no opinion on the response.

Qualified Opinion on State General Apportionment Funding System

In our opinion, except for the noncompliance described in the basis for qualified opinion paragraph, the District complied, in all material respects, with the state compliance requirements applicable to state general apportionment funding system.

Unmodified Opinion on Each of the Other State Programs

In our opinion, the District complied, in all material respects, with the other state compliance requirements referred to above that are applicable to the District for the year ended June 30, 2017.

SECTION IV FINDINGS STATE AWARDS AUDIT

STATE COMPLIANCE (State General Apportionment Funding System)

2017-001

Significant Deficiency

Condition During our testing of state general apportionment funding system, we noted that our independent FTES calculation did not match what was reported on the P2 320 Report. The differences for each semester are presented below. These differences were corrected on the Annual 320 Report; if we had not discovered these differences, the total net difference in full-time equivalent students (FTES) would have been underreported by 16.14 in the annual 320.

Summer 2016 – Under reporting by 10.17 FTES.

Fall 2016 – Under reporting by 3.06 FTES.

Spring 2017 – Under reporting by 2.91 FTES.

Criteria The totals per the Annual 320 Section Summary Report should be calculated correctly based on contact hours and census type.

Cause The District believes that the errors were caused by a misstatement of census type in their software.

Effect FTES were not under reported in the Annual 320 because we brought the error to the District's attention prior to the filing of the report.

Recommendation We recommend that the District review its input for census type to discover courses that have been input into their software system incorrectly.

Response Business Office staff performed an internal audit of their software system and corrected the error in census type.

CORRECTIVE ACTION PLAN June 30, 2017

Not applicable: there are no current-year findings related to federal awards.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS June 30, 2017

STATE COMPLIANCE (State General Apportionment Funding System)

2016-001

Significant Deficiency

Condition During our testing of state general apportionment funding system in the prior year, we noted that the supporting documentation from the Annual 320 Section Summary Report does not agree to the information included in the Annual 320 that was filed. The differences for each attendance category is summarized below. The total net difference in full-time equivalent students (FTES) is an over-reporting in the annual 320 of 14.47.

Summer 2015 – Alternative – State Residents – Over reported by 2.73 FTES

Weekly Census – State Residents – Over reported by 6.41 FTES

Weekly Census – Nonresidents – Over reported by 4.71 FTES

Actual Hours - Noncredit - State Residents - Under reported by 3.01

Actual Hours - Noncredit - Nonresidents - Under reported by 3.48

Alternative – Daily – State Residents – Over reported by 7.11

Criteria The totals per the Annual 320 Section Summary Report should agree exactly to the amounts reported in the Annual 320.

Cause The District believes that the errors were caused by turnover in the attendance and reporting office.

Effect FTES were over reported in the Annual 320 by 14.47. No extrapolation is necessary as the differences are a result of incorrect reporting.

Status See current year finding 2017-001.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS June 30, 2017 (Continued)

STATE COMPLIANCE (State General Apportionment Funding System)

2016-002

Significant Deficiency

Condition During our testing of state general apportionment funding system, we noted that for one of our 40 course selections, the District reported three students who were not eligible to be claimed for apportionment. The students were a "No show" for the course section but were erroneously still claimed for apportionment.

Criteria Students can only be claimed in FTES that have attended the course section.

Cause The District believes that the errors were caused by the fact that the students were dropped in the system subsequent to the census date but before the census rosters were printed for the instructors to certify the attendance data. The data in the system showed the students as dropping after the census date instead of correctly dropping them prior to the census date since they were "No shows".

Effect FTES were over reported in the Annual 320 by 0.25 for this error. We were unable to isolate this error to a specific census type so we extrapolated this error to the entire population of course sections and calculated an extrapolated error of 13.29 FTES.

Status We did not note any similar errors in the current year.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS June 30, 2017 (Continued)

STATE COMPLIANCE (Dual enrollment)

2016-003

Significant Deficiency

Condition During our testing of concurrent enrollment, we noted that the District implemented partnership agreements with local high schools in accordance with AB 288 Dual Enrollment (AB 288). We noted that the District did meet some of the requirements in AB 288 (the District obtained instructor agreements for the high school instructors teaching the courses and the District board-approved the agreements prior to the start of classes). However, we noted that not all of the high school boards approved the agreements prior to the commencement of classes. We also noted that the agreements did not contain all of the required language from AB 288.

Criteria The requirements of AB 288 are not yet included in the Contracted District Audit Manual, however, the requirements are included in the AB 288 summaries and in communication from the Chancellor's office released to Districts.

Cause At the request of the chancellor's office and before the new guidelines were published, the District quickly acted to implement the dual enrollment program. When the revised guidelines were published months after the original chancellor's office request, the dual enrollment agreements didn't meet all of the newly adopted guidelines.

Effect The District claimed a total of 12.02 FTES for the course sections offered under the partnership agreements in accordance with AB 288.

Status We did not note any similar errors in the current year.
